ASSIGNEE'S SALE.

IN BANKRUPTCY:
BY virtue of a License from the Hon. Judge of the United States District Court for Maine District, the undersigned Assignee of the Estate of Nicholas G. Norcross in Bankruptcy, will sell on the SECON day of August next, at the office of J. A. & H. V. Poor in Bangor, to the person offering the highest sum therefor respectively, certain parcels of real estate belonging to said Norcross's Estate, viz:

Part of No. 96 Holland's plan of Bangor, containing about 56 acres, lying between the Webster farm and Hadlock farm, near Barkerville, together with the notes and bond of James P. Crocker, of New York city, endorsed and guaranteed by E. F. Howard for \$13,278.00, secured by a mortgage of May 25, 1836, with interest from said date. Said lot was sold for about \$15,000 at said time. It is laid out into building lots, has a good soil, and is very valuable for a farm if the purchaser so desires.

One half of 50 rods of shore in Edgington above the Mill Dam Company Mills, purchased of Stephen Grant by deed recorded in Penobscot Registry, Book 54, page 263.

One half of 50 rods of shore, bought of Benjamin Grant, deed recorded in Book 54, page 265.

One half of 50 rods of shore, bought of Horace Spencer, deed recorded in Book 54, page 201.

An undivided half of 300 acres of land situated at the mouth of Little Schodico river upon Leiter A. Range 7, conveyed by W. T. & H. Peirce, Feb. 23, 1833, deed recorded in Book 35, page 35.

An undivided sixth part of township No. 7, range 3, partly in the County of Penobscot and partly in the County of Washington, conveyed by deed of Wm. Ingalls, recorded in Penobscot Records, Book 60, page 323.

50 acres of land in Monson as the same was conveyed by the mortgage of Samuel Gilrell, April 8, 1834, being lot No. 6 on the plan of Alexander Greenwood in 1811, with the mortgage note.

The Grant House so called at Oldtown, being the premises conveyed by Augustus Peabody to Norcross & Mason, Nov. 24, 1834, deed by Thomas J. Grant in mortgage October 23, 1837, to secure the sum of \$2,300.00, by deed recorded in Penobscot Records, Book 94, page 193, now occupied by said Grant, together with the notes secured by said mortgage. (Henry Rice claims the premises by Levy of Execution thereon.)

Lot No. 70 in township No. 4, Indian Purchase, 200 acres granted to Mary Strout, Feb. 10, 1837.

Lot No. 72 in township No. 8, range 3, 200 acres granted to Sarah Fisher, Oct. 9, 1838.

Lot and house near Penobscot Mill Dam, being same described in Thomas Norcross's mortgage to Wm. Thompson, dated Dec. 3, 1834, recorded in Penobscot Records, Book 61, page 73, said mortgage being assigned by Thompson. Also Thomas Norcross's mortgage of same lot, dated Sept. 13, 1836, to secure note of \$503.04.

Persons desirous of purchasing the Assignee's title to any one or more of said parcels of land, will please furnish him sealed proposals therefor in writing, naming the bid for each parcel separately, on or before August 1, 1843. On the 2d day of August 1843, he will sell and convey each parcel to the highest bidder without reserve, for cash. The proposals must in each case be sealed and will not be opened till the time named.

Information in relation to said lands can be had by calling on the Assignee.

WOOLEN FACTORY AGENCY AT BANGOR.

SAMUEL T. THOMAS, successor to the late firm of Thomas and Wilson, respectfully gives notice that he will be prepared to receive wool to manufacture into cloths the ensuing season, at No. 119 Broad street, Bangor, (the same stand occupied by them last year) at the following prices, viz:

Cassimere, 35 to 45 cts. per yard.
Fuller Cloth, 30 " " "
Satinet, and find the warp 23 " " "
Blanketing over 2 yds wide 33 " " "
White Flannel, 17 " " "
Colored do, 25 " " "
Colored and pressed, 25 " " "

Customers can generally be supplied with cloths on the delivery of their wool. Wool must be well washed either on the sheep or after it is shorn. Should any work go out of our hands unsatisfactorily done, we hold ourselves accountable for the same.

Thankful to his former customers for the very liberal share of patronage received last year, he hopes by his improvement in manufacturing, and by despatch of business, for a continuance of their favors. The above named cloths for sale very low for cash.

SEE FIRST PAGE.

The business of the country is improving under the operation of the Tariff, and even the Loco presses clap their hands and exclaim, "See how the business of the country prospers without a Bank!" The workers in iron and wool and cotton find a greater demand for their productions, as foreign goods come in less abundantly, because under restrictions, and they are employing more hands. The price of provisions increase on account of the increased demand furnished by improving the home market. The price of wool has also greatly improved and the farmer is beginning to reap the advantage of the Tariff policy which labors to enlarge and improve the Home market.

All classes, except those politicians who are blinded by the thick film of selfishness, begin to see that the highest prosperity to all can best be secured by living as far as possible within ourselves and by helping each other. That market is the best for the farmer where he can procure the most of those articles he needs for the least amount of what he raises, although he may pay a little more than the nominal cash price demanded abroad. But the farmer cannot pluck silver dollars directly from his fruit trees nor dig them from his soil. He therefore buys the cheapest where he gets the most of what he wants for the least of what he produces. So with other professions. And this is the advantage of a home market, and by furnishing this the Tariff policy helps the farmer.

Let us suppose a plain case. A Farmer in Maine needs a suit of clothes which he can buy in London for twenty-five dollars in cash. He has grain and fruit of his own raising, but these articles he cannot sell in London because they have enough of their own and mean to support their own farmers. All the Englishman wants is money. The farmer cannot sell his grain and fruit here because the policy of Free Trade is to make all men farmers, or sufficiently so to reduce the price of surplus productions to a very low sum. To raise the cash to send to London and get his suit will cost him many more bushels of grain and of fruit, than under the Tariff policy would cost him to purchase them at home, although at home he pays nominally more, say thirty dollars; and then again the Free Trade policy is continually draining the country of its money, while the Tariff policy keeps it at home.

Those who vote for Loco candidates, vote for the Free Trade policy.

Those who vote for Whig candidates, vote for the Tariff policy.

Mr. Borden, of the *Troy, N. Y.*, Iron and Nail Works, a few days since, made a contract with the *Government of the Russian Government*, to provide that Government with one of his patent spike machines.

Worcester.

July 24, 1843.

To the Editor of the Whig & Courier:

This, as you well know, is one of the most beautiful and enterprising inland towns in New England. It is situated in a valley, and the good taste of its inhabitants is every where visible in the rich display of shade trees and shrubbery.—Worcester has long been noted for the beauty of its location, its public institutions, and the wealth, intelligence and enterprise of its inhabitants.

There is in the progress of erection here, two large churches and a Catholic College, in addition to about the usual quantity of buildings, which gives it quite an appearance of thrift.—Mechanics and laborers find full employment at good wages—laborers getting a dollar and fifty cents a day. Rents are high and there seems to be a good demand for dwellings. Articles in the provision line are cheap, although I judge it will cost quite as much, take it all in all, for a mechanic to support his family here as in your city. One cannot but notice how closely mechanics apply themselves to business in this place. The extent to which manufacturing for the wholesale market is carried on here, induces habits of great industry, as well as excites the highest skill, since the articles manufactured come in competition with those from other places.

I intend to visit the Lunatic Asylum, the Rooms of the Antiquarian Society, several of the Factories, &c., and if I can find time, you shall hear from me. Yours, A.

Mr. Calhoun.

There is some interest felt about this time in ascertaining the opinions of Mr. Calhoun, and as his friends have but few presses at command, we are willing to give for their benefit the following extract from a speech made by him in 1816, which was prepared for the press by himself:

"Mr. C. proceeded to another topic—the encouragement proper to be afforded to the industry of the country. In regard to the question how far manufacturers ought to be fostered, Mr. C. said it was THE DUTY of this country, as a means of defence, TO ENCOURAGE THE DOMESTIC INDUSTRY OF THE COUNTRY, more especially that part of it which provides the necessary materials for clothing and defence. Let us look at the nature of the war most likely to occur. England is in possession of the ocean; no man, however sanguine, can believe that we can deprive her soon of her predominance there. The control deprives us of the means of maintaining our army and navy cheaply clad. The question relating to manufactures must NOT depend on the abstract principle, that industry, left to pursue its own course, will find in its own interest all the encouragement that is necessary. I lay the claims of the manufacturers entirely out of view, said Mr. C., but on general principles, without regard to their interest, a certain encouragement should be extended at least to our woolen and cotton manufacturers."

In justice to all concerned we ought, perhaps to add, that it has pleased Mr. Calhoun for the last few years to advocate doctrines entirely at variance with the above.

Yankee Wooden Clocks find a market in England. An invoice of 2000 went out in the packet George Washington, which reached Liverpool 3d inst. A letter from a passenger (Mr. Weed, of the Albany Evening Journal,) says "the purchasers are among the humblest of the middling classes, who form clubs of 12, 15 or 20, paying six pence a week into a purse for the purchase of clocks, which are drawn for by lottery, the contribution and drawing continued until each member of the Club rejoices in a Wooden Clock. This is one of the triumphs of American Manufactures."

We notice in the Lowell Courier a long advertisement of the Sulphur Springs and Bathing House at Newbury Vt. We received orders for publishing the same notice and we feel a little curious to know if the Courier or any of our contemporaries have ever succeeded in obtaining any pay for the advertisement. We are inclined to think they have not, and we think it may be well for more or less of them to combine and by collecting the various proofs hold the proprietors to pay through a legal process. We are ready to go in for one share. What say Mr. Courier?

Newton's Repertory of Patent Inventions states that a patent has recently been taken out for an improved kind of comb. The invention consists in the construction of a very small reservoir at the back of the comb, made to contain any oily or coloring matter that may be required to be applied to the roots of the hair in the act of combing. The reservoir is so constructed that the oil or other fluid contained in it may be regularly discharged; or supplied in small quantities to the teeth of the comb, and by that means communicated to the hair in the act of combing.

John Quincy Adams, Peter C Brooks, and Joseph Grinnel of New Bedford, visited the Mercantile Library Rooms in Montreal on Wednesday last. The Gazette says, that "the venerable ex-President was earnestly solicited to deliver an address in the lecture hall of the Mercantile Library Association, and would have gladly acceded to the request had his stay in the city permitted it. At 2 o'clock, P. M., a very large number of citizens paid their respects to the distinguished stranger. After being present at a review of the troops on the Champ de Mars, the party left town for Niagara Falls, via Kingston."

Our Provincial neighbors in New Brunswick and Canada who have heretofore uttered so many groans over the inefficiency of our government in not suppressing riots, now have an opportunity to work at home, as riots have become common, during the solemnities of their elections and the joy of their celebration. If the ergo of their editors in reference to this government was legitimate, it will now apply with equal force to their own.

The following extracts from the correspondence of the Providence Journal seems to indicate that as England backed out from claiming Sandwich Islands so she means to make France do the same in relation to the Society Islands.

The writer in the Journal under date of July 10th says:

"The government has gone on regularly till within the last ten days, since which we have had nothing but rumors of war; and I have an idea that we shall have a serious disturbance here, if the tranquility of Europe is not disturbed by it; for you must know that about twelve days ago we had an arrival here of H. B. M. ship Talbot, Capt. Sir Thomas Thompson, direct from England, and of the Boussole, a French frigate.

Sir Thomas brought letters from the English Government to Queen Pomare, and as she was, on the arrival of the frigate, on Moorea, he sent a boat for her to come over, as she never had been at Tahiti since the French had got possession, and hoisted their protectorate flag. But on the receipt of Sir Thomas's letter she came across in state, with the old Tahiti flag flying in her barge. She pulled directly on board the frigate, without landing, and they manned the yards and ran the old flag of Tahiti to the fort, and saluted it with twenty-one guns, as they also did on her departure.

This annoyed the French greatly, so much so that they issued a protest against the proceedings of the commander, of H. B. M. ship Talbot, in hoisting and saluting the old Tahiti flag, thereby disturbing the peace and tranquility of the place, and acting directly hostile to France. Sir Thomas then requested the Queen to call a meeting of all the inhabitants on the island, to know whether it was their wish that the French should hold possession and govern the island. The meeting took place yesterday in the Queen's enclosure, and it was attended by about 10,000.

When called upon to speak, they all agreed to a man in not wishing the French to remain on the island, and they all wished the Queen to allow them to go and pull down the protectorate flag; but she would not allow it. Last night, however, the flag was hauled down, and the signal yards were cut away. The captain of the Boussole threatened to fire upon the place if the flag does not go up again, and the captain of the English frigate has threatened to fire on the Frenchman the moment a shot is fired upon the town.

As the tenor of the English letter to Pomare was that England would protect her against any foreign power that should encroach upon her dominions, and both frigates at present lie all ready for battle, and as the queen and most of the natives have fled to a distant part of the island, there is no knowing how this affair will end, though I trust the Frenchmen and the Englishmen will fight it out as they are equally matched. I care not which wins.

Benjamin Rathburn, the great forger of Buffalo, is soon to be released from the State prison in consequence of the expiration of his sentence. His friends in Buffalo are about to hold a public meeting for the purpose of "setting him up" again in business. It is thought that his energy of character and great business talents would, if properly encouraged, conduce greatly to the advancement of that already flourishing city.

The Brig Lafayette, Bryant, of this city, arrived at Boston on Tuesday, reports picked up the fore gaff of a schooner, with two single blocks with iron sheaves, and about one half of the sail attached. The gaff was very much burned, and the part of the sail which was gone had been burnt off. It no doubt belonged to ech. Drusilla, before reported burnt at sea.

Mr Harriman will give experiments in Magnetism with his children at the City Hall this evening. These children, are far-famed for their wonderful powers and great interest is consequently felt to witness the experiments particularly the clairvoyant experiments with the little Miss.

The Boston Mercantile Journal states that on Sunday last at Marshfield, a fire was kindled by a small boy who was amusing himself with a mimic coal-pit. The fire burnt over about fifty acres of woodland, and but for the very timely and vigorous exertions of the people, who rushed to the rescue from far and near, there would have been a most serious conflagration.

We regret to learn that Mr Joseph Walker, engaged at work upon the machinery in the new woolen factory at Brooksville, on Tuesday accidentally cut off all the fingers of his left hand. He is an industrious and enterprising man.

The Boston Mail states that on Monday afternoon two young men, members of the New England Guards, James D. Coffin dry goods dealer, and George Davis Dana, son of Mr George Dana flour dealer were drowned by the upsetting of a pleasure boat in Boston Harbor.

The Lady's Book for August has been received at Bugbee's. It is a magnificent number in its pictorial department, and the letter press is above the usual order. Subscribers to this monthly get their moneys worth.

The New York papers record it as a fact important to be known that Hon Caleb Cushing's new coat in which he is to shine in China cost \$105. That is bouble what we paid for our last coat!

The reports of the American Temperance Union shows the immense falling off in the importations of brandy, wine and gin in the first quarters of 1842 and of 1843 to be no less than 18,082 gallons.

Walworth County, Wisconsin, is stated in a letter in the Southport Telegraph to have 20,000 acres in Wheat, which will yield at least 20 bushels to the acre, or \$400,000. The yield will be very large.

The great collection of wild animals that has attracted so much attention in New York, Boston and other places, is making progress towards this city. The display is said to be truly magnificent.

Mr. Barrow, our Minister at Lisbon, has resigned and is coming home.

There is now said to be exhibiting in London, a female, a native of Holland, whose body with the exception of the face and bust is incrustated in a hard substance, which grows upon and completely covers the skin.

On the 30th ult., the Legislature of Bermuda passed to be engrossed, a bill laying a general ad valorem tax of three per cent. on importations, except in the case of articles specially enumerated. Wines, for instance, pay ten per cent. ad valorem. A motion to exempt rice, corn, meal, flour, and fresh vegetables, from all duty, was lost, 17 to 5.—[N. Y. Jour. Com.]

The Toronto Constitutionalist says that a young man named Bailey, a prisoner in the penitentiary, in consequence of insubordination, was placed for punishment in a cistern, where it was necessary that he should work in order to prevent the water overflowing him, and that during the process he was overpowered by the water and drowned.

A company of wealthy and respectable Germans have purchased ten thousand acres of land in Warren county, Pa., with the intention of entering largely upon agricultural and manufacturing pursuits.

James Platt Lansing, Esq. 2d Lieut. of the Texan brig of war Wharton, died at Sisal on the 2d inst. of yellow fever. He was an officer of great amiability and high personal honor, and generally beloved and esteemed.—[Cor. N. O. Tropic.]

Among the many new enterprises recently started in Cincinnati, are, three establishments for the manufacture of linseed oil, which turn out 1500 gallons per day.

Five Mackinaw boats arrived at St. Louis on the 10th instant, from Fort George, on the Platte river, with twelve hundred packs of Buffalo robes. They were 60 days performing the trip.

Tan bark it is said has a good effect when spread around apple trees.

ARMY AND NAVY CHRONICLE.

CIRCULAR.

STATE CONVENTION OF MECHANICS. A Convention of Mechanics, composed of Delegates from the several Associations in this State, will be held at this place commencing on Wednesday, the 9th day of August next.

With the view of affording greater facilities for action of the Convention, as well as making each other acquainted with the progress of the several Associations, it is desired that each Society would furnish the Convention with a Statistical account, embracing its date of organization—its numbers—what is being done towards the promotion of knowledge amongst its members in the way of Scientific classes and lectures—the extent of its Library, Cabinet of Models, Minerals, &c., together with such other information as may be thought useful and interesting to the Convention.

The object of our associated efforts is to cultivate a desire for knowledge and to provide the means for its attainment, that we may be better fitted to perform the duties of our avocation and those which are required of us as citizens of a free government. Man is never too old to learn, and if circumstances in early life prevented us from acquiring the rudiments of knowledge necessary to prepare the mind for its future growth and expansion, we are false to ourselves and fail in our duty to society if we do not avail ourselves, however late in life, of opportunities which may present to remedy in a measure our deficiencies.

"The measure of a man" is, to human comprehension, infinite. To be in the effort to attain it confers the only true social distinction; and there is nothing in any profession or pursuit that is essential to the well-being of society which offers any obstructions to its accomplishment, more particularly in that in which the mental and physical abilities are both called into action.

Science may be more perfectly studied in the workshop than in the closet, when aided by a suitable intellectual preparation. There is the temple of Science, in which true obligations can be offered upon her altars, by reducing to practice the truths which she teaches.

The Subscribers, a Committee appointed by the Gardiner Mechanic's Association, for the purpose of making arrangements for the Convention, respectfully extend an invitation to all Mechanics throughout the State to be present at the Convention and participate in the benefits to be derived from it.—Suitable provision will be made by our Association for all that may attend.

Mr. Elinu Burritt, "the learned Blacksmith," is expected to deliver a Lecture before the Convention.

LOOKING GLASS & PICTURE FRAME MANUFACTORY.

FAIRBANKS & HOLLAND,

PEARSON'S MILLS,.....BANGOR.

THE public are informed that we have established a manufactory for making LOOKING GLASS, PORTRAIT AND PICTURE FRAMES of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and all looking ones, and at as low a price.

Large and elegant O G and bevel frames, and small bevel frames with rich mahogany veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

WHOLESALE, by the hundred or thousand, at prices that cannot but be satisfactory to dealers.

Our new frames fitted to Portraits, Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

Dealers supplied with frames either with or without glasses.

N. B. Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise.

For the convenience of our city friends, orders for frames of any kind may be left at the Hardware store of DAVID MOSMAN on East Market Place.

PATENT MILL WHEELS.
THE Subscriber having for a long time given
his attention to the construction and operation
of Water Wheels, has finally succeeded in the in-
vention of two kinds of Wheels for which he has
received Letters Patent from the Government of
the United States.

These Wheels are simple in their construction,
cheap and durable, are easily put in operation, and
are not liable like most other wheels to get out of
order, they are not obstructed by back water, when
the head is not diminished thereby; and the same
power and speed is obtained, with about one half
the quantity of water usually applied to wheels
now in general use.

A great number of these Wheels are now in op-
eration and give in all cases entire satisfaction; and
for further information respecting them the follow-
ing gentlemen are referred to, all of whom have
some of said wheels in operation: Jacob Drum-
mond, James B. Fiske, Amos Davis and Leonard
March, Esqrs., Messrs Fiske & Norcross, Foster
& Gilman, S. P. & H. Strickland, W. T. & H.
Peirce & Co. Bangor; Hon J. S. Little, Portland;
Hon. John Otis, Hallowell; F. A. Butman, Esquire,
Dixmont; Robert Treat, Geo. A. Peirce, Esquires,
Frankfort; Daniel Dennett, Esq. Milo; Col. Henry
Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira
Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham;
John Black and John M. Hale, Esqrs. Ellsworth;
Messrs. A. Campbell & Co. Cherryfield; Daniel
Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale
at the Iron Foundries of Messrs. HINCKLEY &
EGERY and FRANKLIN MUZZY & Co in this
city, who are furnished with a great variety of pat-
terns, so that Wheels of any particular description,
or adapted to any given head of water, can be fur-
nished at short notice. They are also authorized
to dispose of the Patent Right for the same.
